

Cascade Connections

Cascade Shores Homeowners Association

May 5, 2001

Volume 2, Issue 2

From the Desk of Roland Teuber

This note will be short, as Barb and I are leaving Cascade Shores for the Midwest and Italy. We'll be gone for two months. I know we don't deserve a vacation, but we're going to take one anyway.

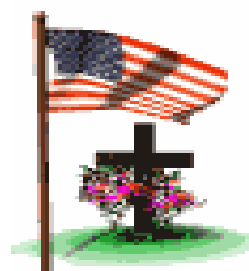

The annual meeting was well attended on 4/7/01 in spite of the snow storm raging outside the Firehouse. We have a new Board of Directors with a number of new faces and personalities.

Karen Dyer took over as Treasurer and is also doing a fine job on the

newsletter. She is a great asset to our community.

Bob Hoge and Dan Troth have left the Board. Bob was kind enough to step into the job as Roads and Environment Chairman and he's done a fine job jawboning with the County people. While living in Cascade Shores for many years, Bob has served on the Board for less than one year before retiring.

Dan Troth, on the other hand has been on the Board for two terms (four years), and he too has

Memorial Day May 28, 2001

been a supper achiever: just ask any of your neighborhood bears how easy it is to get into the new trash bins at Lost Mine Lake

Many thanks to both Bob and Dan for their dedication to our community and for the fine jobs they

Lost Mine Lake by Brian Powell

It's coming up on another season for the Lost Mine Lake and time to get the area into shape.

I would like to start with thanks to Dan Troth and all the volunteers who

completed the many projects and maintenance that really improved the facility last year. Some of these projects included a new submersible pump and irrigation system, repair to the

swim float that brought it back to life and the bear resistant (bear proof) garbage container.

The annual clean-up day will be Saturday

- Do not force us to punish the dog.
- Tri-Tip Picnic slated for early August.
- Good 'Ol Days

Lost Mine Lake Cont.

May 19, 2001. Please bring with you: garden tools, shovels, rakes, hoes, wheelbarrows, weed whackers, paint brushes and cans to hold paint. We will meet at 9:00am at the lake to begin work.

I have just taken over the responsibilities of maintaining the facility and would like to hear from anyone who is interested in helping out with the routine maintenance (mowing the grass, taking out the garbage on Thursday, etc...). If I can get enough help then we could split up the jobs on alternating schedules. Please call me, Brian Powell at 265-6571, to volunteer.

The following have already volunteered, however, we do need more

people.

Bob Hoge – Maintaining the memorial area.

Bill Carter – Water sampling and testing.

Some of the projects we would like to accomplish this year include: repair of the floor in the refrigerator shed, fixing perimeter drainage problems, and new sand for the beach.

Just as a reminder, families and individuals who are current members of the Cascade Shores Homeowners Association may use the lake area free. You must have your membership card to enter. If anyone would like to reserve the

Clean-up Day 5-19-01

picnic area for larger groups, there is a \$50 use fee to be paid prior to the event. This fee gives you access to the shed, refrigerator, barbeque pit, picnic area, and electricity. This picnic area will be reserved for you but other members of the association may still use the beach area and lake.

If you wish to reserve the picnic area of Lost Mine Lake, call **Brian Powell at 265-6571.**

Security Patrol by Irv Stark

As the new head of Security, I look forward to serving the community for the coming year. We will, of course, be continuing our patrols, watching for any problems. However, a large part of the success of security in our neighborhoods is directly related to the co-operation and assistance of residents. Always let us know if you have observed any out of the ordinary or suspicious activity. The summer home next door that is used only occasionally keep an eye on it. Your neighbor

is going on vacation - keep an eye on it. The more people we have helping us, the more eyes we have watching, makes ours a safer, more secure, community.

A word to dog owners... Please follow the laws and regulations concerning dogs. I do not, nor does anyone else, want to have a dog picked up by the county animal control officers. It is traumatic for the dog and the owners. Do not force us to punish the dog. **B e r e s p o n s i b l e .**

Do not force us to punish the dog. **B e r e s p o n s i b l e .**

A reminder... when planning a vacation, or even to be gone for a few days...let us know. We are here to serve you.

Final note... We need a person to fill a security position. It is a volunteer position with expense reimbursement. If you or someone you know may be interested, please call me. **478-0795**

Roads and Environment

April 25th at the county building 10:30 am. Arrived with Aelene Oslin, Bob Hoge, and my self, (Dave Schrack). Met with Michael Hill-Weld, Director of Nevada County D.O.T, Ken Ribble County Yard Supervisor and his assistant Richard.

FIRST SUBJECT: Chip and Seal the roads in Cascade Shores. The road work of this nature will be done sometime in the middle of May 2001. There will be required tree and shrub trimming before this work begins. This trimming will be done by the Nevada County D.O.T. The area to be trimmed, is the easement around your properties. (e.g. the gutter area and the over hanging tree limbs that are in the way of the truck beds when they are raised.) This requires a height of 15 ft from the street surface and approx. 4 ft from the street into the easement. If you have concerns about the trees or shrubs in front of your properties that have to be cut out. Direct your Questions to: **Ken Ribble 1-530-265-7197.**

SECOUND SUBJECT: NID Trucks carrying large pipe sections will not be using Pasquale road during the Quaker hill closure. Questions or Concerns on this matter: Call: **Tim McCall 1-530-273-6185, Ext. 260**

THIRD SUBJECT: School Bus Transportation. The families that use the School Bus Pick-up Point at Banner-Quaker Hill for the two week period of road closure will be required to use Pasquale Road. The pick-up point is yet to be determined.

by Dave Schrack

For more information on this subject **Contact: Durham Transportation at 1-530-273-7282.**

In the letter sent out by NID the statement made that Robinson Timber logging trucks will be using Pasquale Road During the Quaker-Hill Road closure. This statement is not-true. My conversation with Ed Walker on 5-3-01. "Robinson Timber Trucks will not be using Pasquale Rd. during the Quaker-Hill Road closure." Questions and Issues Contact: **Ed Walker at 1-530-265-5844.**

If you observe a logging truck not operating properly

"Emergency vehicles will have complete access to Cascade Shores at all times"

or it's driver please write down the truck's number found on the front and side, the time of the incident and call: Ed Walker: 1-530-265-5844. He needs to know about these issues so they do not continue.

If you observe a large truck (logging, NID or any type) emitting excess emissions get truck number, license number time of day and location and call Nichols Boagman at Air Quality at : 1-530-274-9360.

Annual Tri-Tip Bar-B-Q

The annual Tri- Tip Bar-B-Q, sponsored by the Cascade Shores Homeowners Association, will be held the first weekend in August.

As in the past, the menu includes quality tri-tips cooked by quality

chefs, Bill Carter's famous baked beans, corn husked by the strong hands of volunteers, crisp salad, fresh bread and more.

This a great time to

socialize with your neighbors and friends. We urge you to buy your tickets early and invite friends and family from out of the area. Questions? Call Aelene Oslin at 478-9338.

Inside Story Headline

This story can fit 150-200 words.

One benefit of using your newsletter as a promotional tool is that you can reuse content from other marketing materials, such as press releases, market studies, and reports.

While your main goal of distributing a newsletter might be to sell your product or service, the key to a successful newsletter is making it useful to your readers.

A great way to add useful content to your newsletter is to develop and write your own

articles, or include a calendar of upcoming events or a special offer that promotes a new product.

You can also research articles or find “filler” articles by accessing the World Wide Web. You can write about a variety of topics but try to keep your articles short.

Much of the content you put in your newsletter can also be used for your Web site. Microsoft Publisher offers a simple way to convert your newsletter to a Web publication. So, when you’re finished writing your

newsletter, convert it to a Web site and post it.

Caption describing picture or graphic.

Inside Story Headline

This story can fit 100-150 words.

The subject matter that appears in newsletters is virtually endless. You can include stories that focus on current technologies or innovations in your field.

You may also want to note business or economic trends, or make predictions for your customers or clients.

If the newsletter is distributed internally, you might comment upon new procedures

or improvements to the business. Sales figures or earnings will show how your business is growing.

Some newsletters include a column that is updated every issue, for instance, an advice column, a book review, a letter from the president, or an editorial. You can also profile new employees or top customers or vendors.

“To catch the reader's attention, place an interesting sentence or quote from the story here.”

News From Cascade Shores Women's Club

With Easter Vacation out of the way, one can sometimes feel as though they are on a roller-coaster heading for summer. The weather is looking great and spring flowers are brightening up the Shores.

The Women's Club has been making plans for three major events:

1. **July 12, 2001, Thursday:** We will host children and families of Chernobyl at our annual picnic. Letters have been sent to donors for food and picnic supplies. A sign-up for helpers will be distributed soon. We are looking forward to this exciting and rewarding event.

2. **June 23, 2001, Saturday:** The Women's Club will host a family "Spaghetti Feed" at Lost Mine Lake. Tickets will be \$6.00 for adults and \$3.00 for children. Call Jeanie Ferguson if you have any questions. We plan to serve spaghetti, French bread, salad and watermelon.* Plan to come and spend some time swimming, eating and seeing old friends. You are welcome to invite your friends and relatives from outside the Shores, as well. *Drinks sold separately.

3. **Welcoming Committee:**

Plans are underway to join with the Homeowners Association in welcoming newcomers to the Shores. We want everyone to have the opportunity to become acquainted, feel welcome and be informed. There is so much to know, i.e. Propane Alliance information, boating facilities, chipping dates, what does the Women's Club do, etc. If you know of a newcomer in your neighborhood, let us know and we will plan a visit. Call **Shera Banbury, 470-0553** or **Jeanie Ferguson, 265-0946**.

Third Annual Swim Party for Children's Chernobyl Project of Nevada County

Lost Mine Lake, July 12, 2001 11 AM to 3 PM

Sponsored By Cascade Shores Women's Club

The people of Cascade Shores have reached out a helping hand of concern and caring for children who are brought to our beautiful county for a health respite from the radio active contamination of their homes and villages. All of their water and food is contaminated from the April, 1986, Chernobyl disaster. By spending time away from their home environment,

their immune systems are greatly strengthened. Thus, the children are healthier all year. This year we expect to have about 30 children. Some host families from last year are bringing a parent over with t h e i r c h i l d .

The Cascade Shores Women's Club has organized this swim party/BBQ for 3 years.

The CSHA has waived the fee for the use of Lost Mine Lake and is very supportive of this project.

If you would like to help set-up, prepare the food, take pictures, or be a water safety person, please call our president, Jeanie Ferguson at 265-0946 or vice president, Marilyn Troth at 478-0989.

The Good 'Ol Days by Cathy Stojanovich

I'm Cathy Stojanovich and I do remember some of the "good old days" at Cascade Shores. My memories go back to the early spring of 1965.

It started when my parents, Alice and John Peters, invited me, my husband Al and our (almost 2 year old) daughter Sandy to meet them at Cascade Shores to see the lot they had just purchased. To get to Cascade Shores at that time, we drove up highway 20 to The Five Mile House - drove down to the lake (Scotts Flat) and then across the dam and up a very steep dirt road that came into Pasquale. Of course none of the roads in the development were paved. They were so proud of their "find". Our first question to them was "how did you ever find this place"? (My parents lived in Redwood City at the time and my father worked in San Francisco and we lived in Cupertino, Ca.) They had always talked about wanting to build a cabin for their leisure time and also for their children and grandchildren to enjoy, so when my Dad saw an ad in the San Francisco Chronicle for this property he decided to investigate. They fell in love with the area and didn't waste any time to fulfill their dream.

In August of that same year they moved into their new cabin. (They were one of the first to build in the area) Al, Sandy, our new 6 week old son, Steven and myself helped them on "moving day". That was an interesting ride in on Pasquale with a big rental moving truck. You had to stay back about 1/2 a block (with the other car) so you didn't get blinded by the cloud of dirt thrown out by the truck in front of you. That was the beginning of "ye ole' homestead" at 15509 Cascade Drive.

The old wooden flume used to run right behind their property (we used to fish in it and actually caught a few now and then) and then as it crossed the road at the corner of Pasquale and Cascade Drive it was a huge wooden structure about 15 feet (?) high. To run the electricity in the cabin we had a gas generator - which made for fun nights when it would run out of gas and you would have to grab a flash light and run outside to refill it. My parents got snowed in one time for 3 or 4 days. They didn't have a four wheel drive car and the roads were not cleared regularly because there weren't enough people living there full time, so they had to wait until the PG & E crew came out to check on "whatever it was they checked on" in the area, every 3 or 4 days. Then my parents drove out following the tracks from the PG & E truck. They also didn't have a phone for a while. The winter months always made for an interesting ride in on Pasquale. (Quaker Hill Road was almost non-existent) slipping and sliding in the mud or on the icy mud.

As our children grew, they used to fish in "the little lake" (aka as "the diggins") when there was a little wooden bridge across it. My parents collected petrified wood from the "diggings" and that is what the fireplace is made of in the cabin. We also remember during the drought years, (I think it was the late 70's) when Scotts Flat was so low you could walk (and we did) on the lake bottom in some places. What was really scary was to see how deep the lake was where my children would swim (right next to where the boat ramp is now).

My Dad passed away in 1987 and my Mom in 1993 but their dream lives on in this great little place called Cascade Shores. The cabin is now owned by me and my husband, Al and my sister Judy and her husband Joe and is shared with our two families. It's hard to believe that today, our children are now bringing their children to enjoy the "dream" of my parents - four generations WOW! There has been many changes and I'm sure there will more.

Notes From Your Editor

Karen Dyer

As you have seen, Cathy Stojanovich submitted a delightful recollection of days gone by in the Shores. We thank Cathy for this personal look into her past. For submitting this story, Cathy will be receiving a thank you gift.

I would be most grateful for other stories about the earlier days here in the Shores. If you have one to share, and would like to receive a thank you gift, please e-mail to the e-mail address to your left or send your story to the address to your left.

Kent & Anna Reese have received a thank you gift for naming our newsletter, Cascade Connections.

Roads Cont. from page 3

If you observe a large truck or vehicle speeding, report the truck or vehicle number, license number, time of day and the location to the **CHP at: 1-530-4415.**

General Information

The logging project that is taking place causing the logging trucks to be traveling through our community will end between May 7th and May 11th. It is scheduled to start up again in mid to late sum-

mer. Questions and concerns call: **Ed Walker: 1-530-265-5844.**

Emergency Vehicles will have complete access to Cascade Shores Via Pasquale Rd. during construction operations at all times. Questions or issues please contact: **Michael P. Hill-Weld Director at 1-530-265-1411.**

One more phone number for your collection: **Hugh Gordon, 530-913-7864.** This is his mobile voice mail. Mr. Gordon is the Ombudsman for the NID project.

Please be safe and patient during these busy times.
